Datasi	neet for QoE Datasets. This temp	plate is intended to be us	sed by both dataset c	reators as well as anyone using an already published dataset.	
ote: If there are multiple o	datasets that are being used/proposed	in a single work, please fil	l in a separate sheet for	each individual dataset	
	Date Created:	28-April-2023 Date this template was first made publicly available			
Template Details (not to be modified)	Date Modified	NA		Date the template was modified, if applicable	
		v 1.0	Current Version Nu	***	
	Version	V 1.0	Current version Nu	moer	
Section I: D	Pataset Overview	Value	Additional Comments/Urls (as applicable)	Description of the field	
	Dataset Name Dataset Abbreviation			Name of the dataset Short form of the dataset name, if different from Dataset name	
	Version			Version (default: v1.0)	
	Creation/Publication Date/Year			Date the dataset was first published. If exact date not available, please add the year of crea	
Provide generic information	Modification/Update Date			Date the dataset was last updated (write NA if not applicable/updated since creation)	
about your dataset here. It will allow the reader to	(dd-mm-yyyy)				
uickly understand what this	Repository Citation (BibTex/PlainTex/Url)			Link to the repository	
dataset is about and if it is relevant to their interests.	License			Please add the required citation(s) or point to an url providing the citation MIT, Apache 2.0, BSD, etc.	
	Open-Access?			Is the dataset password protected?	
	_			Contact information of the authors/creators to send questions or comments about the datas	
	Contact Information			-	
	Dataset Size			(Approx) size of the full dataset (in GB)	
Section II: D	ataset Description	Value	Additional Comments/Urls (as applicable)	Description of the field	
	Number of Source Sequences			Number of source sequences considered (audio, videos, etc.)	
	Video Type			Nature of source sequences (gaming, natural, animation, computer generated, etc.)	
	Source Sequence Available?			Are source sequences made available as part of the dataset?	
	Source Data Repository(ies) Bit-depth (s)			Please write NA if the dataset includes source videos as a contribution. 8-bit, 10-bit, 12-bit, 16-bit, etc.	
	Dynamic Range			SDR/HDR/immersive/etc.	
	Frame rate(s)			Frame rate of the source videos, e.g., 24, 25, 30, 60, 120, 144, etc.	
Source Videos information about the various	Resolution(s)			Resolution of source videos	
spects about the source videos	Pristine/User Generated			Are the source sequences pristine or user generated/already compressed?	
that are used in the study	Video Format			RawVideo, ProRes, HEVC encoded, MP4	
	Video Container			MP4, MKV, WEBM, Y4M	
	Audio Format (if applicable)			Audio format, if available	
	Video/Audio/Audiovisual			Type of source sequences (e.g., video only, audio only, audiovisual)	
	SI/TI Information Additional			Is SI/TI [ITU-T Rec. 913] available in the dataset?	
	Information/Comments?			Add any additional information, if available	
	Encoder Implementation			a a EEmaca VTM UM etc	
	Encoder Type			e.g., FFmpeg, VTM, HM, etc. Software/Hardware/Both	
	Type of Software implementation				
	(if applicable)			Reference/Practical/Both	
P. H. GI	Rate Control			VBV, CBR, ABR, etc.	
Encoding Settings information about the encoding	Encoding Speed/Mode			e.g., FFmpeg: ultrafast, medium, slow, etc.	
settings used in the dataset.	Video Codec(s) Resolution(s)			H.264, HEVC, VP9, AV1, VVC, AVS2, AVS3 Encoding resolutions considered	
	Framerate(s)			Encoding framerates considered	
	Bit-depth			Encoded (video) sequences bitrates	
	Artifacts Considered			Encoding, Scaling, Network (Stalling, Quality Changes, Packet Loss, etc.)	
	Scenario considered			Type of streaming scenarios considered	
				I	
	Number of PVSs Container Format			How many PVSs are in total? MP4, MKV, WEBM, Decoded Rawvideo (YUV), etc.	
Processed Video Sequences	Additional Information			Add any additional information, if available	
				,	
Section III: Subjec	ctive Quality Assesment	Value	Additional Comments/Urls (as applicable)	Description of the field	
	Subjective Test Environment			Controlled (Lab), Public, Home-based, Corwdsourcing, Hybrid	
	ITU Rec Methodology			Please mention if the test followed any specific ITU Rec such as BT.500-14, P.910, P.913 ACR(1-5), ACR(0-10), DSIS? If not standardize, please add details.	
	Methodology Display Type			ACR(1-5), ACR(0-10), DSIS? If not standardize, please add details. TV, Mobile, Tablet, Desktop Monitor	
Subjective Test Setup	Display Size			Size of the display(s) used	
	Display Resolution			Link to the device model, if available	
	Viewing Distance			Viewing distance from the screen	
	Subjective test schematic or photo			Is there any schematic or photo showing the lab test set up? If yes, please mention where	
	Luminance, Gamma Level, etc.			available? Was device, room illuminance measured? If yes, please add details	
	Additional Information			Add any additional information about the test environment, if available	
				,	
	Video Playback Software			Video player used to play the videos (e.g., VLC, MPV, Matlab, FFplay, etc.)	
	video Flayback Software	· · · · · · · · · · · · · · · · · · ·		Which software did you use to play the videos and record the subjective opinion scores? I Matlab, MSU VQMT, TUIL AVRateNg, <u>Subjectify.us</u> , Proprietary, Paper-based. Please a	
				Invarian again versus 1111 AvesteNa Subjectity is Proprietary Paper-based Please a	
	Test Software				
				reference, as applicable Was there any training session before the actual test?	
	Test Software			reference, as applicable	
Testing Methodology	Test Software Training			reference, as applicable Was there any training session before the actual test?	

	T			771 1 4 F : 1 F :
	Test type			Video only, Audio-visual, audio only
	Number of Test Subjects			Number of participants that took part in the subjective test
	Test subjects per session			How many test subjects took part in a single session?
	Number of Test Sequences			Number of test sequences considered in subjective test
	Additional Information			Add any additional information about testing methodology, if available
	Test subject recruitment			How were the test subjects recruited for the study? University students and staff, Crowdsou platforms, friends and family, etc.
T. (D. dir.)	Pre-screening?			Was there any pre-screening test performed on the subjective test participants? if yes, pleas mention which ones (visual acquity test such as Sellen or color-blindness test using Ishira cetc.)
	Experts or Non Experts			Please mention if the test subjects are experts (people working in video streaming) or non-experts or mix of both?
Test Participants	Gender Distribution			What is the gender distribution of the test subjects?
	Age Distribution			What is the age distribution of the test participants?
	Additional Demographic			Is additional demographic information data such as viewing device preferences, number of
	Information			hours videos streaming, gaming experience, etc. (as applicable) available? If yes, please pr details
	Additional Information			Add any additional information about test participants, if available
	Post-Screening			Did you perform any outlier analysis? If yes, which methodology did you use? Eg., Correl
	-			based, Z-score
	Subjective Scores Removal?			Were any subjective scores removed after outlier analysis?
Cubicativa Casusa	Subjective Score			MOS/DMOS? Please add details
Subjective Scores Analysis	Subjective Scores Transformation			Did you perform any mapping or transformation on the raw subjective scores? If yes, which one?
111111,919	Individual subjective scores			Are individual subjective scores available?
	Statistical Analysis?			Was there any statistical analysis performed such as calculation of CI, etc.
				Add any additional information about subjective scores post-processing and analysis, if
	Additional Information			available
			T	Add any additional information about the subjective test which is not covered above and n
Any other comments				be relevant to the reader
Section IV: Object	tive Quality Assessment	Value	Additional Comments/Urls (as applicable)	Description of the field
	Quality Metrics Considered			Which quality metrics are you evaluating in this work? e.g., PSNR, SSIM, VMAF, LPIPS,
	Metric Type			What are the type of metrics that you are using? ML/DL/Traditional, Mixed
	Pooling			What type of pooling method (e.g., mean, minkowski summation, harmonic mean, etc.) is
Quality Metrics				to obtain the final video quality score (if applicable).
	Implementation(s) and Version			Add the list of urls to the open-source implementation links for the metrics used, if availab (ffimpeg.github, commercial, proprietary, etc.). Please also add the version of the metric an implementation that you have used in this work
	Additional Information?			Add any additional information about the quality metrics that might be relevant to the user
	Performance Measures Considered			Which measures are considered to evaluate the performance of the quality metrics (e.g., PI SROCC, RMSE, Kendall, R2, etc.)
				Is there any transformation/fitting (linear/3rd order polynoimial/logistic regression) perform
	Mapping performed			before the computation of the performance scores?
Model Evaluation	Statistical Significance Test(s)			Was any statistical significance test performed to compare the performance of the metrics
				compared/evaluated?
	Model Training			Was the model(s) trained/retrained? If yes, how?
	Model Complexity			If available, please add how the model complexity was evaluated
	Additional Information?			Add any additional information about model evaluation that might be relevant to the user
		_		Please add any additional information about the objective evaluation which is not covered
Any oth	ner comments			Please add any additional information about the objective evaluation which is not covered and might be relevant to the reader
	ner comments	Value	Additional Comments/Urls
